RRAYNEX PHARMA IN BRIEF

Pellets, Granules and Mups

Facility I: Boisar, Tarapur MIDC

Key Features:

1. **Capacity & Expansion:** Current available capacity is 40 MT/month with an additional 70 MT under expansion, targeted for completion by January 2025.
2. **Regulatory Compliance:** Facility complies with WHO GMP, CIS, LATAM, and other ROW markets.
3. **Market Focus:** Strong potential in Bangladesh, Pakistan, Russia, Mexico, Sri Lanka, Egypt, and Iran.
4. **Facility Strengths:** Known for high-quality, system-oriented processes with end-to-end manufacturing (intermediates → API → pellets/granules in bulk), ensuring better cost control and quality assurance.
5. **Leadership & Expertise:** Along with the Promoters, Mr. Nishit Gupta and Miss Raina D. Desai, the company is led by Mr. Milind Gadkari (44+ years in pellets & API; ex-Director Pellets, Pelletch Healthcare – EU GMP approved) and Mr. Mihir Patel (15+ years; ex-Murli Krishna), ensuring robust sourcing, quality, and operations management.

API and Intermediaries

Facility II: Sykha | Gujarat

Key Features:

1. **Facility & Capacity:** Equipped with 20 reactors (1 KL, 2 KL, 3 KL & 8 KL) including glass line reactors, SSR, GLR, plus a state-of-the-art QC lab and spacious infrastructure.
2. **Regulatory Compliance:** Certified for WHO GMP, CIS, LATAM, and all other ROW markets.
3. **Market Focus:** Strong potential in Bangladesh, Pakistan, Russia, Mexico, Sri Lanka, Egypt, and Iran.
4. **Current Operations:** Brand-new facility with experienced team; licensed to supply Omeprazole API and intermediaries (Hydroxy, Chloro, Sulphite).
5. **R&D & Pipeline Targets:** Rabeprazole and Domperidone successful at lab scale; commercialization expected by March 2025. Future pipeline includes Itraconazole, Lansoprazole, and Esomeprazole.

Defining Our Desires

Seeking Fulfillment

We want to make healthcare reliable with transparent and on time deliveries and affordable by controlling the process end to end.

“WE DON'T SELL MEDICINES, WE SELL TRUST. WE ARE IN THE BUSINESS OF WINNING AND MAINTAINING TRUST”

Mr. Nishit Gupta
Managing Director
Rraynex Pharmaceuticals Private Limited

rraynex
INNOVATION VALUE GROWTH

PRODUCT PORTFOLIO

Range of Pellets and Granules

We offer pellets and granules tailored to meet various industrial applications, ensuring high quality and reliability.

Specialized Active Pharmaceutical Ingredients

Our expertise includes APIs like Ome, Panto, Fluco, Rabe, and Dome, advancing pharmaceutical solutions for diverse healthcare needs.

High-Quality Intermediaries

We provide top-grade intermediaries that enhance supply chain strength and guarantee consistent standards for our clients.

Range of Pellets and Granules

We offer pellets and granules tailored to meet various industrial applications, ensuring high quality and reliability.

INNOVATION VALUE GROWTH

Pellets

Quality Standards for Pellet Production

Pellet Size Control

Maintaining uniform pellet size ensures consistent combustion and efficient energy output in pellet production.

Moisture Content Regulation

Optimal moisture content improves pellet durability and combustion efficiency, preventing mold and degradation.

Durability and Ash Content

High durability reduces pellet breakage during transport; low ash content ensures cleaner burning fuel.

Pellets Product List

#	Products	Category	Strength
1	Aspirin	Anti-Inflammatory	50% 60% 75%
2	Clopidogrel	Anti-Platelet	40% 45.45% 50% 60%
